

COVID-19 RESPONSE SERVICES

EBI Consulting's team of Certified Industrial Hygienists (CIH), Certified Hazardous Materials Managers (CHMM), Biosafety Experts, and EH&S Professionals are experienced in responding to infectious disease and hazardous material conditions across a variety of property types.

From managing infection control and verifying surface cleanliness to health and safety planning and training, EBI's EH&S team is your partner for COVID-19 response actions.

Our COVID-19 Response services include:

- ❑ Project Management and Oversight of Building Modifications for COVID-19 patients
- ❑ Third Party Verification of Decontamination Activities
 - Review cleaning protocols and cleaning products
 - Monitoring of cleaning companies on site
 - Post-cleaning surface sampling verification including real time ATP meters, Lift Tape for mold spores and Cultural surface samples for bacteria and fungi
- ❑ Indoor Air Quality Services
- ❑ Hazardous Materials Management
- ❑ Health & Safety Program Development to Prepare to Return to Building Occupation
- ❑ Emergency Response Program Planning
- ❑ Business Continuity and Contingency Planning Support
- ❑ Training
 - Bloodborne Pathogens/Infection Control
 - Personal Protective Equipment
 - Chemical safety/HazCom
- ❑ HVAC System Assessments
- ❑ Testing and Balancing for Differential Pressure and Air Flow Determinations

EBI works with the nation's foremost hospitals, laboratories, pharmacies, government agencies, and other mission critical environments to ensure the health and safety of both staff and business operations. EBI's EH&S professionals are available to provide custom consultations and best practices that apply to your individual property and needs. During this time of uncertainty and unclear answers, EBI has the expertise you need, from immediate response action and infection control to preparing your building to return to daily operation.

Contact one of our experts to receive your COVID-19 consultation today.
